contracts for more than \$100,000, and loans and loan guarantees for more than \$150,000, or the single family maximum mortgage limit for affected programs, whichever is greater; and

- iv. Anti-Lobbying Disclosures. Any applicant or component entity thereof that has paid or will pay for lobbying using any funds must submit an SF–LLL, "Disclosure of Lobbying Activities," as required under 15 CFR part 28, appendix B.
- (8) Lower Tier Certifications. Recipients shall require applicants/ bidders for subgrants, contracts, subcontracts, or other lower tier covered transactions at any tier under the award to submit, if applicable, a completed Form CD-512, "Certifications Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion-Lower Tier Covered Transactions and Lobbying" and disclosure form, SF-LLL, "Disclosure of Lobbying Activities." Form CD-512 is intended for the use of recipients and should not be transmitted to the Department of Commerce. SF-LLL submitted by any tier recipient or subrecipient should be submitted to the Department of Commerce in accordance with the instructions contained in the award document.
- (9) False Statements. A false statement on an application is grounds for denial or termination of funds and grounds for possible punishment by a fine or imprisonment as provided in 18 U.S.C. 1001.
- (10) Intergovernmental Review— Applications under this program are not subject to Executive Order 12372, "Intergovernmental Review of Federal Programs."
- (11) Purchase of American-Made Equipment and Products—Applicants are hereby notified that they will be encouraged, to the greatest extent practicable, to purchase American-made equipment and products with funding provided under this Program in accordance with Congressional intent as set forth in the resolution contained in Public Law 103–317, sections 607(a)–(b).

Dated: March 27, 1995.

Mary Lowe Good,

Under Secretary of Commerce for Technology, Department of Commerce.

BILLING CODE 3510-18-M

DEPARTMENT OF DEFENSE

Office of the Secretary of the Army

Notice of Availability of the Draft Environmental Impact Statement for Disposal and Reuse of Hamilton Army Airfield, California

AGENCY: Department of the Army, DoD. **ACTION:** Notice of availability.

SUMMARY: In compliance with the National Environmental Policy Act and the President's Council on Environmental Quality, the Army has prepared a Draft Environmental Impact Statement (DEIS) for disposal of certain excess property at Hamilton Army Airfield, California. The DEIS also analyzes impacts on a range of potential reuse alternatives.

Copies of the DEIS have been forwarded to various Federal, state, and local agencies, and certain other interested organizations and individuals.

DATES: Written public comments and suggestions received within 45 days of this Notice of Availability will be considered in preparing the Final Environmental Impact Statement and in preparing a Record of Decision for the Army action.

ADDRESSES: Copies of the Draft Environmental Impact Statement can be obtained by writing or calling Mr. Robert Koenigs, Sacramento District, U.S. Army Corps of Engineers, 1325 J Street, 13th Floor, Sacramento, CA 95814–2922 or by calling (916) 557–6712. Mr. Koenigs may also be reached by fax at (916) 557–7876. Questions about the DEIS and written comments may be sent to the same address

Dated 27, 1995.

Lewis D. Walker,

Deputy Assistant Secretary of the Army (Environment, Safety and Occupational Health) OASA (IL&E).

[FR Doc. 95–7850 Filed 3–29–95; 8:45 am] BILLING CODE 3710–08–M

Department of the Army

Corps of Engineers

Notice of Intent To Prepare a Draft Environmental Impact Statement for the Proposed Coos Bay-North Bend Water Supply Project, Coos County, Oregon

AGENCY: U.S. Army Corps of Engineers, Portland District, DOD.

ACTION: Notice of intent.

SUMMARY: The proposed action is the issuance of a Department of the Army

permit under Section 404 of the Clean Water Act of 1977, as amended, and Section 9 of the River and Harbor Act of 1899 for the construction of a dam and reservoir on Joe Ney Creek, and raising of an existing dam on Upper Pony Creek. Both projects would be located in Coos County, Oregon, The Coos Bay-North Bend Water Board is the permit applicant, and is proposing this action for the purpose of increasing the municipal and industrial water supply for its service area.

ADDRESSES: U.S. Army Corps of Engineers, Portland District, P.O. Box 2496, Portland, Oregon 97208–2946. FOR FURTHER INFORMATION CONTACT: Mr. David Kurkoski, (503) 326-6094. Internet address: david_ kurkoski @smtplink.npp.usace. army.mil. SUPPLEMENTARY INFORMATION: The Coos Bay-North Bend Water Board, Coos County, Oregon has applied to the Portland District, U.S. Army Corps of Engineers for a Department of the Army Permit under section 404 of the Clean Water Act of 1977, as amended, and Section 9 of the River and Harbor Act of 1899. The proposed action is to construct a new dam and reservoir on Joe Ney Creek, and raise an existing dam on Upper Pony Creek to increase the storage capacity of the reservoir. The purpose of the proposed action is to increase municipal and industrial water supply storage for the area serviced by the Water Board.

Pony Creek

The existing Upper Pony Creek Reservoir was created by a dam across Pony Creek near the headwaters at approximately River Mile (RM) 4.5). The dam was constructed in 1951 to provide water storage for the Water Board's service area. The proposed expansion would involve raising the existing 45-foot earthfill dam by 21.5 feet, to increase reservoir storage capacity from the existing 2,150 acre-feet to 6,250 acre-feet.

Joe Ney Creek

The existing reservoir on Joe Ney Creek was created by a 9-foot=high earthen dam constructed in 1947 at RM 1.5. The Water board proposes to build a larger dam approximately 800 feet upstream of the existing dam. the new dam, which would be built to an evaluation of 39 feet, would provide storage for 2,500 acre-feet.

Operations

Both reservoirs would be operated by the Water board for municipal and industrial water supply. Water would be pumped from Joe Ney Reservoir through a pipeline across the ridge to the Pony Creek basin, discharging into a natural channel flowing into Upper Pony Creek Reservoir. As needed, water stored in Upper Pony Creek Reservoir would be released into lower Pony Creek where it is withdrawn and treated at the water treatment plant.

The alternatives to be considered in the DEIS area:

- —the proposed project
- development of other water supplies to meet the project objectives
- —no action.

The scoping process will commence in March 1995 with the issuance of a scoping letter. Federal, state and local agencies, Indian tribes, and interested organizations and individuals will be asked to comment on the significant issues relating to the potential effects of the alternatives. Potentially significant issues to be addressed in the DEIS include: effects of the project on wetlands, wildlife habitat and populations, and fisheries.

A formal scoping meeting has not been scheduled. The applicant has scheduled a public meeting to be held at 7:00 pm, on April 5, 1995, at the North Bend Public Library, North Bend, Oregon. the purpose of the public meeting is to provide more information on the project and the scope of studies to be accomplished for this DEIS, to assist interested parties in developing their scoping comments.

The DEIS is scheduled to be made available to the public in late 1995.

Kenneth L. Denton,

Army Federal Register Liaison Officer. [FR Doc. 95–7751 Filed 3–29–95; 8:45 am] BILLING CODE 3710–AR–M

Corps of Engineers

Finding of No Significant Impact (FNSI) for a Draft Environmental Impact Statement (DEIS) for the Lower Santa Cruz River Flood Control Study, Pinal County, AZ

AGENCY: Corps of Engineers, Los Angeles District, DOD.

ACTION: Finding of no significant impact.

SUMMARY: The Federal Register, Volume 55, No. 105, dated May 31, 1990, contained a Notice of Intent to Prepare a Draft Environmental Impact Statement for the Lower Santa Cruz River Flood Control Study, Pinal County, AZ. No implementable flood control plan was developed, and the study has been terminated. No Draft Environmental Impact Statement was prepared.

ADDRESSES: U.S. Army Corps of Engineers, Los Angeles District, P.O. Box 2711, Los Angeles, CA 90053–2325. FOR FURTHER INFORMATION CONTACT: Mr. William R. Burton, 894–4352.

Army Federal Register Liaison Officer. [FR Doc. 95–7750 Filed 3–29–95; 8:45 am] BILLING CODE 3710–KF–M

Corps of Engineers

Kenneth L. Denton,

Intent To Prepare a Draft Environmental Impact Statement (DEIS) for the Proposed Surface Coal Mining Operation in Saline County, Illinois

AGENCY: U.S. Army Corps of Engineers, Louisville District, DOD.

ACTION: Notice of Intent.

SUMMARY: The proposed project involves the surface mining of coal from 1,537 acres of a 1,935 acre site located 1 to 3 miles west of Harrisburg in Saline County, Illinois. The proposed surface mine includes approximately 400 acres of jurisdictional wetlands. The major impacts would be the permanent relocation of Bankston Fork, construction of a haul road to the coal extraction areas using a bridge over Bankston Fork, construction of 12,500 feet of levee along Bankston Fork to provide temporary flood protection for the mining site, and surface mining coal from 1,537 acres.

ADDRESSES: U.S. Army Corps of Engineers, Louisville District, P.O. Box 59, Louisville, Kentucky 40201–0059.

FOR FURTHER INFORMATION CONTACT: Mr. Michael Turner, (502) 582–6015.

SUPPLEMENTARY INFORMATION: The wetland areas to be impacted consist of approximately 200 acres of palustrine forested wetlands with the remainder being open water, scrub/shrub, and emergent wetlands. The relocation of Bankston Fork would be accomplished by excavating 291,000 cubic yards of material. This material would be utilized in constructing a temporary flood control levee. The new stream channel would be 7,450 feet long, 450 feet longer than the existing stream channel. After relocating the stream and construction of a bridge, mining would consist of removing the overburden in 150 to 200 foot wide open pits of varying lengths using a large dragline. Mining would progress through the area protected by the levee over a period of 7 years commencing in 1996.

Proposed mitigation for the loss of wetlands will consist of the creation of nearly 700 acres of wetlands on-site and the restoration of same on another 200+ acres both on- and off-site. Open water, forested, scrub/shrub, and emergent wetlands are planned.

The Corps of Engineers will initiate a scoping process for the purpose of determining the range of issues to be addressed in the Draft Environmental Impact Statement (DEIS). A public scoping meeting is scheduled for Wednesday, April 26, 1995, beginning at 7:00 p.m., in the Pruett-Patton Building which is located on Church Street next to and behind the Mitchell-Carnegie Public Library in Harrisburg, Illinois.

A brief presentation will precede the request for public comment. Corps representatives will be available at this meeting to receive comments from the public regarding issues which should be addressed in the preparation of the DEIS. It is important that Federal, state, and local agencies and interested individuals take this opportunity to identify environmental concerns. In the interest of available time, each speaker will be asked to limit their oral comments to ten minutes.

Agencies and the public are also invited and encouraged to provide written comments in addition to, or in lieu of, oral comments at the public meeting. To be most helpful, scoping comments should clearly describe specific issues or topics which the individual or agency believes the DEIS should address. Written statements should be mailed to the above address not later than May 8, 1995.

Kenneth L. Denton,

Army Federal Register Liaison Officer. [FR Doc. 95–7752 Filed 3–29–95; 8:45 am] BILLING CODE 3710–JB–M

Department of the Navy

Office of the Deputy Assistant Secretary of the Navy (Conversion and Redevelopment); Community Redevelopment Authority and Available Surplus Buildings and Land at Military Installations Designated for Closure: Naval Training Center, Orlando, FL—Main Station

AGENCY: Department of the Navy, DOD. **ACTION:** Notice.

SUMMARY: This Notice provides information regarding the redevelopment authority that has been established to plan the reuse of the Naval Training Center, Main Station, Orlando, FL, the surplus property that is located at that base closure site, and the timely election by the redevelopment authority to proceed under new
